HEGEL[®]
MUSIC SYSTEMS

Closing for Easter

Easter celebrations is a big thing in Norway. Norwegian are “going to hytta” and this is very important. This basically means that Norwegians will migrate to fairly simple cabins in the wilderness for a week.

Hegel will therefore close the main office in Norway during Easter.

We will close at 4pm on Friday April 12th and re-open Tuesday April 23rd.

The last shipping day prior to Easter is Thursday April 11th, and pre-payments must be in by the end of the day on Wednesday 10th

Product of the Year

We are very proud that the H590 was awarded Product of the Year in leading Hong Kong magazine HiFi Review!

The top 100 of 20 years

HiFi+ Magazine in the UK celebrates their 20th anniversary this year and took the time to pick the TOP 100 audio products for the last 20 years.

We are really proud to say that the H590 is one of them.

Vienna Music&Vinyl

Fabian Presslauer from GP Austria represented Hegel and KEF at the Music&Vinyl show in Vienna. A show that was about... you guessed it.

Our system was the H590 with KEF Blade 2 loudspeakers. In a beautiful venue

Munich High End Show 2019

We are just 1 month away from the Munich High End show. Hegel will be present together with KEF in room F120 and F106 in Atrium 4.1. We will play some brand new things at the show, so make certain you book a time for a meeting and a coffee or beer with us. We are all there. Bent, Anders, Johan, Brad, Bill and Fredrik.

Klangschloss

Picture of the Hegel room at the Klangschloss show in Switzerland in March. Playing H590 and Mohican on Blumendorf speakers

Mohican A+ in Stereophile

Look who is A+ listed in Stereophile's recommended components 2019. Yes, the Mohican. This is our first ever product on the "big list".

Say hello to Johan, our new member

Much of the Asia and Pacific region has long been under served by Hegel. It is therefore we are very proud to announce a new member on the Hegel sales team. Johan Coorg, who some know from KEF, started March 1st as Sales Manager APAC for Hegel. He will continue working for KEF in Europe and North America. We believe this will make us a lot stronger in the region.

Welcome to AudioKlan / Top HiFi i Poland

In the middle of February we had the pleasure of including AudioKlan and all their Top HiFi stores in the Hegel Family. Top HiFi is a chain with 16 stores, and they distribute most of their own brands like B&W, Yamaha, Rotel, Amphion and now also Hegel. They have a wide range available for demo in every single store. So welcome Darek and all the team

A word on Roon

Work is in progress to make the H190, H590 and future products into Roon endpoints. This is a very important feature for many users. Especially in North America. We are 99,9% certain we will have this finished and certified this fall. It will be offered as a free software update to all owners.

A word on Control4 and IP

Work is also in progress to give H190, H590 and future products Control4 SDDP (if you don't know what it is, you don't need it). We are also finishing RTI and Crestron IP drivers for both. Control4 and Savant are already in place.

C5 multi-channel power amplifiers

New business. That is what the C5-series offer. We have sold a lot of these in the USA. A very big success. But some of our markets haven't even tried. The C5 is an exceptional amplifier for studios, theaters or bi-amping. Read what Widescreen Review says:

"If I was creating a home theatre from scratch and my amplifier budget was up to \$2,000 per channel, I would go with as many C55 amplifiers as needed for the number of channels and save a bit of my budget to use elsewhere. At this point, in early 2019, there's no other amplifier I would even consider in that price range." - Widescreen Magazine / 2019
